### Remarks

The examiner raised new issues under 35 U.S.C. §112, second paragraph, claim 7 contains the following fragments of R<sub>4</sub>, which lack antecedent basis in claim 1.

As can be seen from present above amendments to the claim 7, these fragments of R<sub>4</sub> have been canceled. Furthermore, four examples fall within this genus have been canceled as well. Therefore, these grounds of advisory have been adopted and these new issues have been obviated.

The examiner raised new issues under 35 U.S.C. §103 to require further consideration, suggested that the term "lower alkyl oxyheterocyclyl" falls within the reference genus of WO 04/99186. As can be seen from the present above amendments, "lower alkyl oxyheterocyclyl" as well as its fragments in claim 7 has been canceled. Therefore, these grounds of advisory have been adopted and these new issues have been obviated.

### CONCLUSION

In light of the foregoing amendments and remarks, it is believed that the application is condition for allowance, so that a prompt and favorable response is earnestly solicited.
